

Arrival/Departure Summary Panel Display

mod. TL09-00 (2 Forms Info + Form Clock)

Arrival/Departure Summary Panel Display

Devices made in LED technology, are part of a line of devices for displaying information to travellers in public transportation applications.

Given the panel structure and density mounting of LEDs, these devices allow you to view any layout faithfully generated.

The structure of the devices is in modules, the first of which to date with real-time.

The high performance of optical brightness, contrast and angle of vision allow to use them in outdoor environments with strong light, even in the presence of sunlight.

The devices, thanks to the characteristics of the operating system and application software on board, are able to view any information screen so to allow the use of these in many different areas (web applications, etc...).

Configuration

TL09-00 (2 Forms Info + Form Clock)

LED

Tecnologia	AlInGaP
Colore	Yellow
Diameter (mm)	4000
Brightness	4
Contrast	> 5

CONSUMPTION

Pmax (70% max brightness LED lit)	1,0 kW
Pmed (typical use)	0,8 kW

OVERALL

Dimensions (mm)	4150 (880+1635+1635) x 460 x 150
-----------------	----------------------------------

PROTECTION

Grade	IP32/IP55
-------	-----------
