

City Information LED Sign

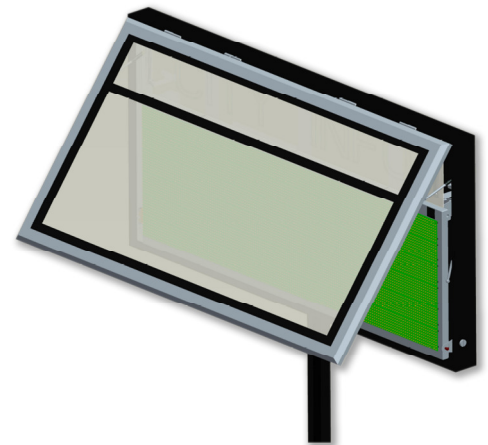

The City Information LED Sign belongs to the line of devices for outdoor application and suited to operate in harsh environmental conditions.

The equipment is in fact able to resist against a wind force above 130 km/h and provides a high degree of protection against infiltration of water and dust without compromising air circulation that is necessary for the dissipation of heat generated by internal electronic devices.

Has a protective front panel with antiglare treatment, to ensure visibility from any angle and any light conditions outside.

The equipment is able to resist vandalism and damage. Therefore is also equipped with devices to limit access to non-experts, while retaining quick access for maintenance.

Is structured mechanically and electronically in a modular fashion to minimize the time for action and thereafter the down time due to fault.

City Information LED Sign

LED colors	Monochrome or Fullcolor
Height (mm)	1400
Width (mm)	2500
Depth (mm)	120
IP Protection	55
